

Embossers

Embossers add a personal or professional flare to your paper products. With a variety of sizes and styles available, embossers bring raised imprints to the forefront of important documents.

APPLICATIONS

- **Notaries and Government Officials** – Highlight professional documents with a custom notary that will imprint your required information.
- **Corporations** – Whether you prefer the look of an embossed return address or want to add a professional flare to your documents, there is a durable embosser that will meet your needs.
- **Architects and Engineers** – Add an embossed seal to documents and drawings with your license number.
- **School Organizations** – Add school seals, library information, or official transcript seals to newsletters, books or student reports with a customizable embosser.

Pocket Embosser

Our pocket embosser comes in a vinyl pouch and is perfect for travelling in a purse or a briefcase.

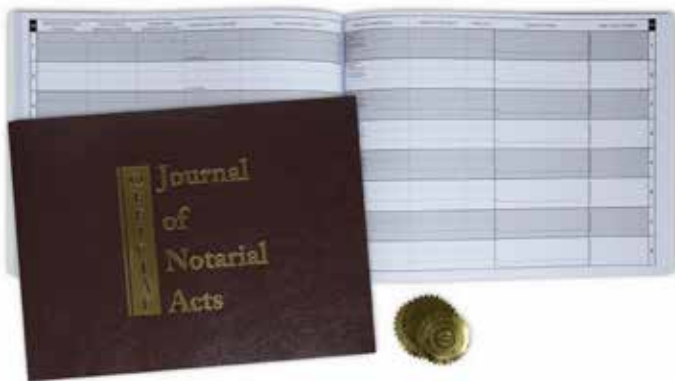

PRODUCT DETAIL AND OPTIONS

Our embossers combine a metal frame with a die, typically made from a plastic polymer called Delrin. We offer three different styles of embossers, each of which have multiple imprint sizes. Refer to our tech sheet for specific requirements for artwork and state seals.

Standard Desk Embosser

The desk model is ideal for any office space.

Notary Journal and Foil Seals

Our notary journal helps you keep records of your services performed. Journal includes 116 pages and allow for 464 entries.

For a special touch of professionalism, add a gold foil seal before making your impression.

40 Gold Foil Seals per package. 2" Diameter.

Long Reach Embosser

Offering the same functionality as the standard embosser, the long reach embosser allows you to reach up to 3½" from the edge of the paper.

Non-slip rubber "feet" keep embosser in place. Use artwork, logo, or one of our standard designs to customize your embosser.
